

Join the IAGC

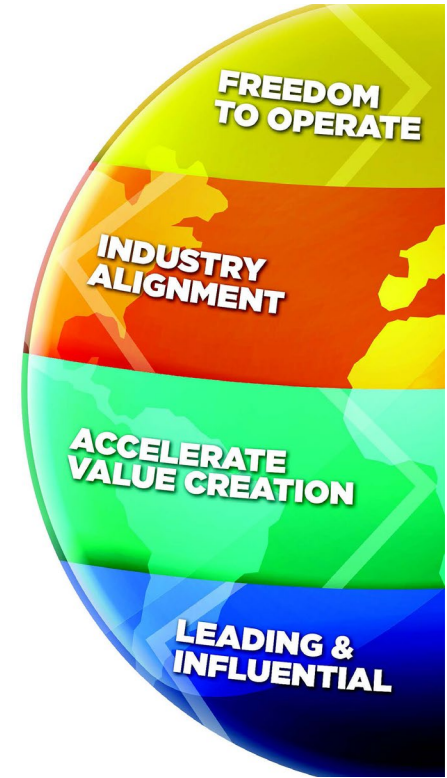

The IAGC is the global trade association representing all segments of the geophysical and exploration (G&E) industry, the cornerstone of the modern energy industry. Our membership spans 50 countries and includes onshore and offshore survey operators and acquisition companies, data and processing providers, exploration and production companies, geophysical equipment and software manufacturers, industry suppliers, and service providers.

The IAGC engages governments and stakeholders worldwide on issues central to geophysical operations and exploration access, and works vigorously on behalf of its members to advance the industry's *Freedom to Operate*, ensuring increased access for acquisition and acreage. Our goal is to *Accelerate Value Creation* by reducing cycle times for the industry by ensuring clear, consistent, and transparent science- and risk-based permitting processes and increasing efficiencies in our members' operations by delivering high-quality products and services.

We invite you to join the most credible and effective voice for promoting and ensuring a safe, environmentally responsible and competitive G&E industry!

Your company's membership enables you to:

- Promote efficiency, safety, environmental sustainability and assurance in your business and operations with access to the numerous members-only resources on the IAGC member website, including industry best practices and guidance, HSSE statistics database, trends analysis, and safety manuals, regulatory and environmental compliance tools, model master licensing agreement and key licensing and contracting statements of principles, and public advocacy materials and publications.

- Stay abreast of critical industry news and updates via member alerts and the IAGC Newsletter and bi-weekly NewsBrief, which educates members on regulatory & policy issues and IAGC initiatives, activities and events.
- Be represented before key legislative and regulatory bodies around the world to help drive geophysical and exploration policy.
- Shape industry priorities and positions through IAGC Committees and Workgroups.
- Enjoy discounted registration to IAGC conferences as well as access to member-exclusive webinars and workshops where you can receive and exchange information, network with industry peers and develop critical skills.

Membership in the IAGC is by company and permits all member-company employees to participate in IAGC activities.

Membership Classes and Qualifications

Membership Class	Membership Qualifications
Governing	<p><i>Any company that satisfies the requirements of 1 and 2 below:</i></p> <ol style="list-style-type: none"> 1. The company's primary business is one or more of the following: <ul style="list-style-type: none"> • Geophysical data acquisition contractor; • Geophysical data processing contractor; • Owner and supplier of multi-client geophysical data for license; • Geophysical service provider; or • Geophysical equipment supplier/manufacturer. 2. The company is: <ul style="list-style-type: none"> • Not owned by a government or an oil and gas exploration and production company (E&P company); or • Owned by a government or an E&P company and: <ul style="list-style-type: none"> ▪ Receives at least 35 percent of its revenues (from geophysical products and services) from sources other than its owner(s) or other companies or

Membership Class	Membership Qualifications
	<p>government agencies affiliated with its owner(s), measured on the basis of a "rolling" average for the last three 12-month periods that have been closed and reported; and</p> <ul style="list-style-type: none"> ▪ Maintains a viable, ongoing business providing geophysical goods and services outside its home country.
Industry Partner	A non-geophysical company that has interest in supporting the mission and objectives of the Association but does not otherwise qualify for membership.
Contributing	Any company that meets the Governing Member definition but declines participation as a Governing Member.
Associate	Any company that provides products and services to the geophysical or E&P industry.

IAGC Membership Dues

Membership Category	Annual Dues Amount
Governing Member Dues	Contact Criss Rennie White for details at crennie@iagc.org .
Industry Partner Dues	US\$ 55,000
Contributing & Associate Member Dues (*Gross Revenue)	
Less than \$5 million	US\$ 5,800
Less than \$25 million	US\$ 10,650
Less than \$75 million	US\$ 21,000
Less than \$150 million	US\$ 29,325
Over \$150 million	US\$ 38,200

*Gross Revenue for the 12 months most recently closed (and reported if your company is publicly traded) – 3rd & 4th quarters of preceding year and 1st & 2nd quarters of current year. Gross Revenue includes revenue generated from geophysical products and services. Cost incurred in generating gross revenue should not be deducted.

For example, if you provided geophysical acquisition services, cost incurred and paid to a subcontractor should not be deducted. Geophysical products and services would include but not necessarily be limited to the following revenue that is derived from:

- multi-client sales of geophysical data (seismic and non-seismic)
- proprietary work on behalf of a client (seismic and non-seismic – including VSP)
- data processing (seismic and non-seismic – including VSP)
- geophysical derivative products (maps, interpretative studies, etc.)
- data management services
- project management services
- sales of manufactured products
- any other activity related to the geophysical industry
